

# Map Showing Points on and Along the Mexican Border

Carrizal, the point in Mexico where troops K and C of the tenth cavalry were attacked by a band of Carranzistas and practically wiped out, is shown in the map of the border and surrounding towns given here. Carrizal is about 100 miles from Chihuahua City, where the prisoners were carried. Orders from General Trevino last night that the prisoners be taken to Juarez and released means that they will have to cover a distance of about 200 miles, and in this event they will hardly reach the border before late today or tomorrow. Interesting accounts of the Carrizal fight will probably be related by these prisoners, numbering in all 23 men.

The town of Parral is also shown

on the accompanying illustration. It was at this place that a body of American troops were attacked by a citizen mob several months ago and driven out of town. At that time it was charged that the Carranza garrison located there secretly

aided the townsmen. It was hinted

at that during the confusion the Carranza garrison fired on the Amer-

icans.

General Pershing's force is said to be scattered between the border and

Parral, a distance of over 300 miles. Headquarters of the American army are at Nampulpa, between Chihuahua City and Carrizal. All of Pershing's forces are east of the Sierra mountains, with a line of communication extending from Columbus, New Mexico, to Nampulpa, and

back to El Paso, Texas, the line being somewhat in the shape of a V. Practically all of the towns where members of the regular army and militiamen are located, are shown on this map; also, the points where the militia of other states will be located in the event they are called to the border.

## RUSH

100,000 Militiamen Mobilize for Duty on the Mexican Border

Part of the equipment of every soldier is a Wrist Watch. It's a great convenience, worn on the left arm to see the time when on the march, with coat buttoned up.

## FOR SALE

Two second hand Ford cars—one 5 passenger and one Roadster.

Don't delay if interested, as there were a number of buyers for the car advertised a few days ago.

## TODD AUTO SHOP,

North Main Street.

Make your foundation of Spring business sure by the liberal use of Daily Intelligence space. Your ads will be in the good company of every other live wire merchant of the community. No plan of reaching the public is complete without the use of The Intelligence's columns.

## GEORGIA MOONSHINERS WAX RICH WITH STATE IN PROHIBITION GRIP

Atlanta, Ga., June 28.—United States revenue officers returning to Atlanta from raids in north Georgia report that moonshine distilleries are running on a bigger scale than ever before.

They attribute the increased output of white lightning to the fact that Georgia's new prohibition laws have rendered the state a parching desert.

There is said to be a regular supply line running from the mountains to a suburban town on the edge of Atlanta where the trolley cars run, and citizens suffering with a thirst are said to make the journey to the suburb every Saturday afternoon and lay in a supply of mountain dew to run them for a week.

Recently, however, the county police of Fulton county and the United States revenue officers have seriously interfered from time to time with the flow of the mountain dew, and on these occasions the thirsty pilgrims have been hardly able to make it back to town, so great was their suffering.

Mr. E. N. Broyles.

Mr. E. N. Broyles died early this morning at his residence on West River street. He is survived by his wife and three children.

The funeral service will be held Friday morning at 10 o'clock at the residence, 301 West River street. Interment will be made in Silver Brook cemetery.

## G A S

To cook with is the most convenient fuel to be had.

And it is the cheaper, too when the least bit of thought and attention is given to it.

Try it for awhile, and you will find it. There are many advantages to be gained by using gas.

It's just the thing to have in the kitchen.

Anderson Gas Co.

## NO COMMISSIONS FOR VOLUNTEER COMPANY

GOVERNOR WIRES HE HAS  
AUTHORIZED NO AP-  
POINTMENTS AS YET

## B E E N INSPECTED

New Anderson Company Passed  
Test and Been Put Into  
Service.

According to an indirect long-distance telephone report from Columbia last night, the Anderson Volunteers have been inspected and passed into service. However, no officers have as yet been commissioned for the company, so it is not known who will be in charge of the third company of men sent out from the city of Anderson.

A telegram stating that no officers have as yet been commissioned for the Anderson Volunteers was received in the city last night from Governor Manning, the governor's message having come as a reply to a telegram sent him earlier in the evening asking him who had been commissioned first lieutenant of the company, this being the position for which Mr. J. I. Trowbridge is slated. The telegram from the governor is as follows:

"Your wire. I have not authorized the appointment or signed the commission of any officer in the second Anderson Infantry company. I have not been officially requested to commission anyone. These matters come to me officially through Col. Bryant, the commander of the 1st Infantry."

## WILSON HEARD CHEERING.

At 11 o'clock at White House After Judge Westcott Spoke at St. Louis. During the demonstration for President Wilson which followed Judge Westcott's speech in St. Louis a telephone wire connecting the convention hall with the White House overboard was broken.

The president, Mrs. Wilson, Secretary Taft and other members of the White House party heard it. The applause and cheering could be heard very plainly.

St. Louis, Mo., June 28.—After fourteen hours of military training the 1st Infantry of the United States Army, which is being sent to the front in Europe, left St. Louis for New York City today. The 1st Infantry is the first of the 100,000 men who are being mobilized for duty on the Mexican border.

## CARD FROM MR. TILMAN

Mr. Editor:  
From information which has come to me from over the district, I find that the report is being religiously circulated that I am going to withdraw from the race for congress. The foundation for this report is the fact that I am a member of the National Guard, and will, in all probability, be ordered out for duty in the Mexican crisis.

I am First Lieutenant of the Greenwood company, Coast Artillery, and if the Coast Artillery is ordered to mobilize, I would most assuredly respond to the call, but I know of nothing in the rules of the democratic party which disqualifies a National Guardsman from running in the democratic primary. If I am ordered out, I will conduct my campaign as best I can by correspondence and advertising, but in no event will I withdraw from this race. I entered it in good faith, believing that I was fitted to serve the people acceptably as their representative in Washington, and I shall fight it out to the finish.

I ask my friends throughout the district to correct this report wherever they find it, and to tell the people that I am in this race to the finish.

Respectfully yours,  
H. G. Tillman.

Adv.

## YOUR WAGON IS READY FOR YOU

I have just rolled out a carload of

### GOOD OLD MITCHELL WAGONS

Known as the "Monarch of the Road," a wagon with a record, having been manufactured and giving satisfaction continuously since 1834, or for 82 years.

Prices and Terms to suit

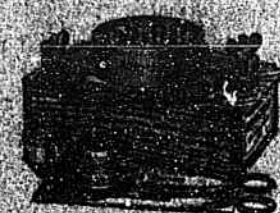

## Fred G. Tribble

Successor to Davis Bros.

West Benson St.

Complete stock of Harness, Laprobes, Whips, etc.

## It is a Well Established Fact Among Tire Manufacturers

that 90 per cent. of the "Tire Troubles" such as Blow Outs, Tread Loosening, Sand Blisters, Etc., are caused by neglected cuts and injuries. They admit moisture to the carcass and cause the fabric to rot and weaken—they allow sand and gravel to become imbedded in the tire and cause the tread to loosen.

You can save 90 per cent. of your "Tire Troubles" and expense with an Adamson Vulcanizer—repair those cuts and injuries anywhere, on the road or at home, in 15 minutes, at the cost of a few cents.
